A NOTE TO GARDENERS

We are more than sorry to say that, due to personal reasons having nothing to do with our love of lilies nor the pleasure we take in raising and selecting them for our customers, again we are not going to be able to put on a large retail season this fall.

We shall be able to accept only a limited number of orders from gardeners, like yourself, whom we feel have a real stake in their lily plantings.

During this period of curtailed activity you may be sure that good care of our plantings is a primary consideration. While we do not have time to fill thousands of small orders this fall we do have time to care for our priceless lilies.

This is a concentrated listing only. We shall welcome your order and stocks will be up to their usual standard. Full descriptions are available in your old catalogue. For those who have mislaid earlier catalogues we have a few old copies that we will be happy to send on request.

ALAN AND ESTHER MACNEIL

NEW LILIES

JASPER A recent hybrid by Patterson and a cross of *L. cernuum* x *Willmottiae*. The pendant-recurved blooms are a soft rose in color. The vigorous plants grow to 30 inches and establish and increase rapidly. Early July flowering.

Each \$3.00

VOLMERII This name will not be retained for long as there is already another lily so named but it is the new clear yellow form of *L. tigrinum* imported recently from Japan. Identical with *tigrinum* in all respects except color.

Each \$3.50

WHITE GOLD A companion plant to **L. Jasper** but the color is soft ivory overlaid with pinkish tan. Almost exactly the color of *L. testaceum*. Even more vigorous and prolific than Jasper.

Each \$3.00

GARDEN LILIES

ALASKA A tall, pure white form of *L. Henryi* developed by W. C. Horsford. Not available in 1954.

AMABILE Orange-red Turkscap. Late June. 1½ to 2 feet.

TERMS

Due to varied growing conditions over which we have no control, it is not possible for us to place any guarantee on bulbs other than that they are true to name, and will arrive in good condition.

Remittances should accompany order in form of draft, check or money order.

All prices include prepaid postage or express to destination in the U. S. or Canada east of the Rocky Mountains. Customers living in the far West are requested to add 5% to the total cost to help meet shipping charges.

We regret that orders for under \$10.00 cannot be accepted this season — nor any received after October 15th. We would appreciate it if orders are placed as early as possible.

Six bulbs of any one variety and size furnished at the dozen rate.

Our book, *Garden Lilies*, published by Oxford University Press, has received unanimously enthusiastic reviews throughout the country. We shall be happy to accept orders. It is priced at \$4.00.
